

## I. Introduction

- A. Background information
- B. Problem statement or research question
- C. Objectives or hypothesis
- D. Significance of the study

## II. Literature Review

- A. Previous research on the topic
- B. Theoretical framework
- C. Gaps or limitations in the existing research
- D. Key concepts and definitions

## III. Methodology

- A. Research design and approach
- B. Data collection methods
- C. Sample size and selection
- D. Data analysis techniques

## IV. Results

- A. Findings of the study
- B. Statistical analysis
- C. Tables and graphs to illustrate data
- D. Interpretation of results

## V. Discussion

- A. Implications of the findings
- B. Relationship to previous research
- C. Limitations of the study
- D. Suggestions for future research

## VI. Conclusion

- A. Summary of findings
- B. Contributions to the field
- C. Practical implications
- D. Recommendations

## VII. References

- A. List of sources cited in the paper
- B. Follow citation guidelines required by the professor or publication.
