

## I. Introduction

- A. Background information
- B. Research question/hypothesis
- C. Purpose statement

## II. Literature Review

- A. Key findings and arguments of relevant literature
- B. Critique of literature
- C. Identify gaps in literature

## III. Methodology

- A. Research design
- B. Participants
- C. Data collection procedures
- D. Data analysis procedures

## IV. Results

- A. Overview of findings
- B. Data presentation
- C. Data analysis and interpretation

## V. Discussion

- A. Summary of findings
- B. Discussion of results in relation to research question/hypothesis
- C. Implications of results for future research and practice

## VI. Conclusion

- A. Summary of key points

B. Limitations of study

C. Recommendations for future research

## VII. References

A. List of sources cited in paper

B. Follow citation style guidelines (e.g., APA, MLA)
